Respected Sir,

We, the loyal ratepayers and citizens of Bhadravati most respectfully beg to bring the following few lines for your generous consideration and needful immediate action

(1) To apply Town Municipal Regulation to a Municipality a town should have a population of 5,000 or an annual income of ₹10,000

(2) Bhadravati Town has double qualifications both in population as well as in income

(3) From the very fact that the voters list prepared under Minor Municipal Regulation in July 1941 contained 3,999 voters - all above 21 years of age, it is self-evident that the population is above 5,000

(4) Inspite of the repeated prayers of the public that the elections should be conducted under Town Municipal Regulations no heed has so far been paid, and the three general elections are held contrary to the Regulations framed by the Government

(5) On 7-7-1941, the General Elections were held under Minor Municipal Regulations and the bonafide legitamate prayers of the public have thus become a cry in the wilderness in these days of mass-awakening

(6) Since the elections are over, the injustice done to the public has to be redressed in some way or other by the Government by filling in the extra seats in the would-be Town Municipal Council either by nomination or election

Under the above circumstances, we pray that the working of the present Council re-constituted this month may be

kept in abeyance pending the filling in the extra seats under Town Municipal Regulation in a way the Government may deem fit in the interest of justice, equity and fair-play

Subject — Bhadravathi Minor Municipality - conversion of - into Town Municipality

SIR

With reference to your letter No L 1692 dated 27th August 1941 on the above subject, I have the honour to state that the matter was fully considered by the Municipal Council Bhadravathi in its Special General Meeting held on 7th September 1941 The Council are of opinion that the question of converting the Municipality into a Town Municipality may be deferred for the present as it involves a number of complicated issues and that it is not the idea of the Council to include the Bhadravathi New Town Board within the Municipal limits

2 A copy of the resolution of the Council is enclosed

3 The President Minor Municipal Council Bhadravathi is also of the opinion that as a number of Town Improvement Schemes such as the Water Supply Scheme and the Scheme for the improvement of the river sides, are under the consideration of Government and as these improvement schemes cannot be carried out without the financial assistance of the Mysore Iron and Steel Works it is not desirable at the present moment to disturb the status of the Municipality A copy of the President's letter is also enclosed

4 The New Town Board have also under consideration certain schemes of Town development which may affect the present territorial division of the two bodies

5 I have discussed the question with the President of the Municipality

Municipality In the above circumstances I also agree that it is not desirable, at present to convert the Municipality into a Town Municipality or to include the New Town Board within the Municipal Limits as it involves a number of complicated issues The question may, as suggested by the Municipal Council and by the President be deferred It would be best for the Municipal Council to continue as it is for some time

With reference to your Memo No A 4034/41-42 dated 4th September 1941 asking me to obtain the opinion of the Municipal Council of Bhadravathi on the question of converting the present Minor Municipality into a Town Municipality I have the honour to state that the matter was laid before the Council at a Special General Meeting to-day and that the matter was fully discussed in all its bearings The Municipal Council are of opinion that the question may be deferred for the present as it involves a number of complicated issues They are further of opinion that it is not under the contemplation of the Council to include the Bhadravathi New Town within the Town Municipal limits

I am also personally of opinion that as a number of Town ImprovementSchemes are under the consideration of the Government (as the water supply scheme and the scheme for the improvement of the river sides) which cannot be carried out without the substantial financial assistance of the Mysore Iron and Steel Works, it is not desirable at the present moment to disturb the Status of the Municipality

The New Town Board have also under consideration certain schemes of Town Development which may affect the present territorial division of the two bodies In the view of these circumstances, I think it is best for the Municipal Council to continue as it is for some time
